

REMARKS

Claims

The claims have been amended to eliminate multiple dependency and to conform with U.S. requirements and practice regarding claim format. The amendments result in 1 independent claim and 16 total claims. No new matter has been introduced by these amendments.

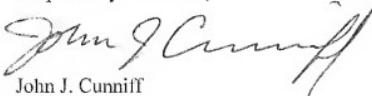

Substitute Specification

The Applicant invokes 37 CFR 1.125, allowing use of a substitute specification, so that the Examiner has a clean copy of the specification for work purposes, since the literal translation lacks paragraph numbering. In accordance with 37 CFR 1.125, a marked up copy of the specification is also submitted.

As shown in the marked-up specification, paragraph numbers have been added and minor wording changes and similar modifications have been made without adding new matter.

The Applicant submits that the claims are in a condition to permit allowance and request early and favorable disposition of this application.

Respectfully submitted,
